Bachelor of Degree

## SKILLS

- Website Development
- React.js
- Node.js
- Git & GitHub
- MySQL
- Communication
- Teamwork
- Fast Learner

## LANGUAGES

- Amaharic
- English

## PROFILE

I'm Biniam Shimeles — a naturally curious, fast-learning, and highly adaptable Computer Science graduate with a deep interest in solving real-world problems through technology. I enjoy building things that are useful and meaningful, especially in the web and software space. With strong communication skills, a solid foundation in modern development tools, and a team-first mindset, I thrive in environments where learning, creativity, and impact come together. I believe in growth, continuous learning, and being part of something bigger than myself.

## EXPERIENCE

- Intern — Ethiopian Airlines
- Application Design & Delivery Office
- Addis Ababa, Ethiopia · 2024
- Worked alongside software professionals on enterprise-level systems
- Applied classroom knowledge in real-world team settings
- Learned and adapted quickly to new tools, workflows, and expectations
- Gained experience in agile development, system design, and team collaboration

## PROJECTS

- U-Chain: Coffee & Teff Supply Chain Platform
- Final Year Capstone | Tools: Angular, Django, MySQL
- Built a platform to modernize Ethiopia's agricultural supply chain
- Placed 2nd in the campus-wide innovation competition
- Other Projects
- Movie Club App: Web app for browsing and reviewing movies
- Airline Ticket System: Simulated reservation system
- Portfolio Website: Personal site hosted on Vercel
- Academic Projects: Multiple systems developed across various courses

## ACHIEVEMENTS

- 2nd Place – Final Year Innovation Project Competition, Dilla University (2024)
- Completed Internship – Ethiopian Airlines, Application Delivery Team
- Graduated with a solid academic record (~3.5 GPA) and strong project involvement
- Known by peers and instructors for being fast to learn, reliable in teams, and focused on solutions
